Drogo Baggins

I get myself all settled in Buckland and ready to get married with a nice wing of Brandy Hall all to myself, and Cousin Bilbo goes calling me to Hobbiton! It's not quite proper, mind you. But I've done my fair share of improper things, I suppose, like packing up to live across the Brandywine like some boot-wearing river-Hobbit. Primula tells me I need to buck up my courage (a little Brandybuck humor, that) and get past my fears if I'm ever to earn a proper place at Brandy Hall. So, I suppose we'll see what strangeness Cousin Bilbo's got planned, so long as there's no boats involved. I'm still a proper Westfarthing Hobbit, and not comfortable with those untrustworthy contraptions yet.

Drogo Baggins is about fifty years old at the time of these adventures, and is quite the proper Hobbit, if a little overweight. One day, he will marry his lovely Primula, and the two will have a son, Frodo Baggins.

Esmeralda Took

Oh, this is going to be delightful! A true Baggins Adventure right here, set out by the Master of Bag End himself! Yes, I know I'm technically here because Great Aunt Lalia wanted me to make sure "that Mad Baggins didn't stir up any nonsense", and more likely to get me out of Tuckborough for a few days after the to-do at her birthday party last year, but that wasn't my fault, and truth be told, I plan on coming back with a good story or two in my pocket. In fact, I've no doubt that I'll have more yarns to spin than Gammer Rosa keeps by that creaking old rocker of hers.

A great-granddaughter of Gerontius, the Old Took, she is still in her tweens. She was about five years old when Bilbo Baggins left Bag End to go and claim the gold of Smaug the Dragon. She'll marry Saradoc Brandybuck, and one day become the mother of one Meriadoc Brandybuck.

Lobelia Bracegirdle

Can you believe the gall of that… that… Brandybuck! Oh, he calls himself a Baggins, but no right and proper Baggins would run off with a pack of mad Dwarves and a half-cracked wizard into the blue, let alone have the audacity to show his face over a year later with a pony full of gold and pretend everything's right as rain! I'll not have it, I tell you. And I'll not have him bringing anymore undo scandal to the proper people of the Shire. He's up to something, calling Tooks and Brandbucks to Bag End for some nasty, troublesome business no doubt.

The daughter of Blanco Bracegirdle and Primrose Boffin, Lobelia has yet to marry Otho Sackville-Baggins. She's about forty years old, and she has already seen her ambition to enter Bag End as rightful owner disappear once, when Bilbo returned from his adventure against all odds.

Minding my business in Whitwell and who should come trundling up the lane of my farm but young Esmeralda! Off to see Cousin Bilbo she is, and I thought to myself, that is a right fine idea. What's wrong with a Took having a touch of fun before settling down and becoming a proper farmer? I'm still a tween myself, why not set off responsibility for another season or two and honor my great-grandfather with a bit of adventure? Seems only proper.

Underage brother to Esmeralda Took, and future Thain, for the moment his only claim to fame is being the oldest son of Adalgrim Took, and a newly-settled farmer from Whitwell. One day, he'll have a son, and name him Peregrin.

Primula Brandybuck

It's quite proper that Drogo and I head back to Bag End for a bit. We've not seen his Uncle Bilbo since Drogo promised to marry me right there in front of everyone under the Party Tree. Dear Drogo may be stiff at times, but he's got a touch of his uncle in him. Rory's coming along, shrewd as ever and convinced something strange is afoot. Esmeralda is convinced we're going to find a dragon or some such nonsense. As for Lobelia, well the less said the better. Someone's got to keep a level head in this whole affair, and it seems like I'm the only one fit for the job.

A cousin of Bilbo Baggins (on her mother's side), Primula is the youngest daughter of Gorbadoc Brandybuck, the Master of Buckland. Soon, she will marry Drogo Baggins, and the two will have a son, Frodo.

Rorimac Brandybuck

All those dragon tales and children's stories aren't without some truth, I tell you. Mad Baggins is up to something, and I mean to find out what. Plain and proper he was before that wizard dragged him off into the blue, only to plop him back down over a year later with a pack full of gold and a twinkle in his eye. I'm not judging him, mind you. We Bucklanders get called strange enough by these stiff Westfarthing Hobbits, but if Baggins is up to some new strangeness, I mean to witness it first hand and see what's going on for myself.

Brother to Primula, Rorimac (called 'Rory') will soon inherit the title of Master of Buckland. For the moment, he's a stout Hobbit, suspicious of anything uncanny, and always ready to defend his sister.

Balin, Son of Fundin

Oh, just popping in for a spot of tea, and what do I find but a fresh throng of conspirators gathered once again around the table of dear Bilbo Baggins, and gazing in the candlelight at some ancient map. Well, bless my beard if our merry little adventure didn't leave its mark! Old habits die hard, or so they say, and it seems like Bilbo's company of would be "expert treasure hunters" could use a touch of insight from those of us who go in for these kinds of things.

Balin is a hardened traveller. He has fought in many battles, but has never lost his appetite for adventure. He accompanied Bilbo and Thorin in the Quest for Erebor, and has developed a strong attachment to the old Hobbit burglar.

BILBO BAGGINS

They call me cracked, odd, and even a touch mad. I suppose, by Shire standards, they might be right. But, and perhaps I'm being a bit overly Tookish here, I say, is there anything wrong with a little adventure now and again? I dare say these silly simpletons and gallivanting gossips could do with more excitement in their lives. I've certainly had my fair share in my years - and a grand helping it was all at once, I tell you! What with that business with Dwarves and wizards and dragons and all. Ask a Bolger or Boffin, and they'll say no good came of it, but they don't know what they're missing!

A friend of bears and a guest of eagles, Bilbo Baggins is Ringwinner and Luckwearer, and even Barrel-rider! He is at the same time the greatest Hobbit adventurer of all time, and the most peace-loving one. But behind his joyous manners, he hides a terrible secret…
